Unrivaled air distribution solution for hygienic food processing operation

In the food processing industry, maintaining the highest product quality is paramount. Therefore, it is essential to have a high-quality, fabric-based air distribution system that guarantees hygienic operation, eliminates drafts and improves the well-being and comfort of employees.

EVEN AIR DISTRIBUTION

- Distributes air evenly throughout all food processing line rooms.

HYGIENIC OPERATION

- Antimicrobial fabrics eliminate health risks, and ducts are easily washable.

EASY INSTALLATION

- As simple as it can get; no heavy machinery is needed.

LONG LIFESPAN

- Proven durability for decades to come.

CORROSION-RESISTANT

- Fabric does not rust, thus eliminating the risk of corrosion.

HIGH INDOOR AIR QUALITY

- Creates a perfect and draft-free environment for all employees.
