# Robust indoor air quality for education facilities

From algebra to zoology, learning is enhanced when students are in comfortable classrooms. The ideal configuration of fabric ducting in these environments ensures that educators, staff and students work and learn in a pleasant environment that minimizes their exposure to pollutants and germs in the air.

## **EVEN AIR DISTRIBUTION**

- Distributes air evenly throughout the facility.

## **LONG LIFESPAN**

- Proven durability for decades to come.

## **AESTHETIC SOLUTION**

- A variety of duct profiles and standard colors and custom printing compliment any setting.

## **VIRTUALLY NOISELESS**

- Does not create additional unpleasant sounds.

## **HIGH INDOOR AIR QUALITY**

- Creates a perfect and draft-free environment for all students, employees and guests.
